Keeping You Informed About County Government

On the May 28 Commission Agenda:

The Commission will vote on a Resolution to add new language to the Solid Waste Plan that would provide for the establishment of the possibility of a solid waste disposal area in Sedgwick County.

An agreement with Wichita State University, School of Community Affairs, and COMCARE to provide professional evaluation services for the Sedgwick County Community Crime Prevention Fund will be presented to the Commission.

The Commission will be asked to approve a grant application for the Juvenile Accountability Incentive Block Grant.

Reduce Mosquito Breeding

The Sedgwick County Health Department would like to remind you that this is the time of year for mosquitoes and for West Nile Virus.

West Nile Virus, which is spread through the bite of a mosquito, was confirmed in Sedgwick County last summer and is predicted to be here to stay, much like lyme disease. However, there are several steps you can take to reduce mosquito breeding and avoid mosquito bites. Both of which will help reduce your chances of being bitten by an infected mosquito. For more information and tips visit www.sedgwickcounty.org or call the Sedgwick County Health Department at 660-7392.
